

School Capacity Building Project

**CLASSROOM
SPACE FOR
A STUDENT**

We build space for
1200 students in 2021.
Our target in 2022 is

**Space
for 2000
Students**

1 in 4 children of school-going age is out of school in our country - 99 million children in total have dropped out of school (Census 2011)

The National Sample Survey Organisation's 2017-18 household survey put the number of out-of-school children in India (6-17 years) at 3.22 crore.

India has 33 million working children between the ages of 5-18 years. In parts of the country, more than half the child population is engaged in labor (Census 2011)

Human Welfare Foundation

Established by a group of eminent community leaders in 2006, Human Welfare Foundation (HWF) has become one of India's leading nongovernmental organizations dedicated to carrying out humanitarian and development programs to fight poverty and people's sufferings by working in partnership with vulnerable communities regardless of faith, caste, gender or political beliefs.

Vision 2026

HWF's flagship project "VISION 2026" is an ambitious plan to bring about transformation on the social landscape of the country. The plan envisages the establishment of multifarious institutions across the country, with a strong human resource of committed volunteers and recognized community leaders. The program intervenes the needs of the day when one-thirds of country's population hardly met the basic amenities for its servility.

School Capacity Building Project

So far, we have supported 85+ schools across the country.

Lots of studies have confirmed the fact that school infrastructure plays a vital role in the education and development of a student. There is a large number of schools in the country without even basic infrastructures. Over 6,000 schools across India do not have a building, according to the Unified District Information System for Education Plus (UDISE+) Report for the year 2019-20. As per the report, over two lakh schools do not have a library facility, nine lakh schools do not have functional computer facilities for the students, and over 11 lakh schools do not have internet facilities.

Our School Capacity Building Project aims at rehabilitating such schools by supporting them with the necessary funds to develop their basic minimum infrastructure. Under the project, so far, we have supported 85+ schools across the country.

2021

we constructed
32 classrooms in 16
schools creating

**Space for
1200 students**

for quality education.

2022

we are targeting
construction of 50
classrooms creating

**space for
2000 students**

for quality education.

Classroom Space
for One Student:

INR 25,000

Construction of
One Classroom:

INR 10,00,000

(for 40 Students)

“

When you build a classroom space for a student to get his/her education, you help a community progress.
